ATLAS

Leela, the Indian game of self-knowledge

72 squares, one die and your own question

HOW TO PLAY

1. **Ask your question.** Before the first throw, put into words what you bring to the game.
2. **Wait for a six.** The token waits on 68. A six gives it birth on square 6, Delusion.
3. **Sixes add up.** A six brings another throw and the throws add up. Three sixes in a row cancel each other: only the next throw counts.
4. **Arrows lift, snakes bring down.** Live the square where an arrow or a snake begins, then follow it.
5. **Past 72.** Go up to 72, the snake takes you to 51, and the rest of the throw goes on from 51.
6. **The end.** The game ends when the token lands exactly on 68, Cosmic Consciousness.

> *On every square, read its name, ask its question and write one line in your journal.*

Arrow: lifts you

Snake: brings you down

68: the goal
